

**TENNECBD DIVINE BOVINE PET**  
 CBD Specially Formulated for Our Furry Friends

TenneCBD Pet Plus is designed as a broad-spectrum tincture specifically formulated to give your dog, cat or other mammalian family member an adequate dose of relief. Our uniquely blended formula combines pharmaceutical-grade ingredients with all natural beef pandrippings and our signature distilled MCT for fast absorption and an irresistible taste.

By reducing the amount of THC present, without compromising the benefits of a natural whole-plant extract, we have taken into consideration that many animals are acutely sensitive to THC and present to you the first line of products designed with this in mind.

Dosage can be mixed with food if consumed immediately, otherwise administer orally twice a day and as needed.

"I am an athlete and recently used TenneCBD Black after I was hit by a car, fractured my wrist, and tore ligaments in my hand. I was able to avoid taking any opiate based pain medication as long as I kept taking regular doses of TenneCBD Black...but I could also pass an Olympic level drug test while still taking this product."  
 ~Warren A.

"I am a professional musician, and I have one of the autoimmune forms of arthritis. The frequency of flare ups had increased to the extent that I was preparing myself for the end of my career. A friend referred me to Rique, and after a phone consult I decided to give TenneCBD oil a try. Learning about the source of the product, the pure organic ingredients, and the strict testing, gave me confidence in the quality of the product. For me, it has been a game changer! I noticed a remarkable difference within 36 hours. It is prolonging my career, and has significantly increased my quality of life. Thank you Rique!  
 ~Carole R.

"TenneCBD saved my cat. She is 22 and started having daily seizures. Our vet suggested trying CBD instead of drugs and in ONE DAY the seizures stopped and have stayed gone. It has been wonderful!!!"  
 ~Cam

"My rheumatologist was amazed at how much my health has improved. After using CBD oil for over a year, I'm no longer taking pain medication for my fibromyalgia and arthritis. I would recommend LabCanna over any other products on the market!"  
 ~Marcie

"Personally I have seen major benefits with my joint pain and a reduction in inflammation and I am managing my sugar and my insulin every two or three hours - I do one or two drops under my tongue and it really helps with sugar cravings and I have noticed, as have others, a side benefit of weight loss. I apply it topically where needed, I even add a drop to my skin creams and smoothie!  
 Please contact me with any questions you might have - I would love to share the benefits of these incredible all natural products.  
 All The Best,  
 ~Riqué

*"I suffered with tennis elbow for close to a year with no relief. When I applied the TENNECBD 'Alleviate 500 mg Balm' the pain was alleviated IMMEDIATELY! It was AMAZING!" ~ Denise C.*

## MISSION

To offer life enhancing products that create a greater quality of life and that help you to create beauty from the inside out.

## WHAT IS CBD?

CBD, or Cannabidiol, is one of over 110 naturally occurring cannabinoids and is a non-psychoactive component of the Hemp or Cannabis plant. It possesses many of the healing properties without the "high" that is delivered by THC (Tetrahydrocannabinol).

## WHAT ARE THE BENEFITS OF CBD?

We do have many inspiring stories and feedback from customers around the country on how our products have changed their lives. As always, if you have any concerns or questions about your health, you should consult with a physician or other healthcare professional.

Current studies have shown that CBD has powerful anti-inflammatory, anti-anxiety, anti-depressant qualities. It is also used successfully as a seizure treatment, cancer fighter and tumor preventative, sleep aid, neuroprotectant and cognitive enhancer. CBD also supports healthy heart function, vascular health and gastrointestinal health to name just a few.

## WILL IT MAKE ME FAIL A DRUG TEST?

The short answer? It depends on the product. You will not fail a drug test using Formula Black as it is pure CBD isolate. You will fail a drug test using Formula Green because it does have trace elements of THC. Some people pass drug tests using Formula Green but it can trigger a positive result.

## IS CBD SAFE?

Yes! Not only is it safe, it can be taken by kids and animals. According to a report from the World Health Organization, "In humans, CBD exhibits no effects indicative of any abuse or dependence potential... To date, there is no evidence of public health related problems associated with the use of pure CBD."

## WHAT IS THE SUGGEST DOSAGE?

15 ML (Travel Size) 1 full dropper = .05 ML  
30 ML (Full Size) 1/2 half dropper = .05 ML

Put it underneath your tongue in the morning and in the evening preferably 9 hours apart. It is recommend letting it dissolve for 15 to 30 seconds. *(Thinking happy thoughts and/or visualizing well-being is helpful.)*

You can also use a few drops when needed every 2-3 hours. It can also be used topically.

## DISCLAIMERS

No statement on this web site or in this brochure has been evaluated by the Food and Drug Administration (FDA). Furthermore, none of the statements in this web site or in this brochure should be construed as dispensing medical advice or making claims regarding the cure of diseases. LabCanna products sold by Rique Collection are not intended to diagnose, treat, cure or prevent any disease. You should consult a licensed health care professional before starting any dietary supplement, especially if you are pregnant or have any pre-existing injuries or medical conditions.
